

## EQUIPPING EC EDUCATORS: Integrating Symbolic Representation with LEGO® Play System to teach Kindness in Preschools!

The KinderMovementSG workshop offers quality training to Early Childhood (EC) educators with innovative techniques to teach pre-schoolers kindness.

2023's workshop equips EC Educators on how they can integrate a higher order cognitive development strategy, Symbolic Representation with the LEGO Play System for character education to pre-schoolers.

### WHAT IS SYMBOLIC REPRESENTATION (SR)?

SR is a 'concrete-to-abstract' higher-order thinking strategy that helps children to cognitively learn Generalization, see Patterns & make Predictions for creative problem solving in different situations.

Through this, children acquire the habits of mind to process their thinking & act with deeper understanding when situations require kindness.

### WHAT MATERIALS WILL PARTICIPANTS RECEIVE?

Workshop participants will receive Children Learning Kits for their students, consisting of:  
**LEGO Bricks + Learning Materials!**
